All,

I received this voice mail this morning, The caller is saying that a dairy has cut the bank on a creek and is draining all of the dairy wastewater into it.

The location is (Ex. 6 PP / Ex. 7(C)/ 7(D)) Homedale Idaho.

(Ex. 6 PP / Ex. 7(C)/ 7(D))

They cut the bank yesterday and are letting all the water drain off the dairy into the unnamed drain that connects back into the Snake River 2.3 miles downstream. See screenshots below.
